

Concord Sept 15th 1855

My dear Miss Weston

I received your kind note accompanying the circular in behalf of the Liberty Bell, a day or two since and hasten to reply. I should certainly be very glad to help towards its publication, both by pen and purse. The latter I will surely promise. The former, under conditions, which I cannot quite command as yet. I am very much engaged just now, with domestic duties, which engross most of my time and thoughts but in October I hope to seek rest & strength among the hills of Vermont. While there, if "the spirit moves" I will gladly obey her, to what she comes to aid the mighty cause to which

our hearts and hands are pledged,
whether we speak or keep silence.

I have an invalid mother to take
care of, and a sister just preparing
for a winter in Fagal, whether she
goes for health, and my heart and
hands are full -

We are just reorganising our Sewing
Society, and find it some what
embarrassing to set a just valuation
upon the work done, such as plain
sewing; if there is a scale of prices
adopted by the general Society,
will it be too much trouble to ask
you to forward it to me.

With sincere regard I am

Yrs Louisa Jane Whiting.
